

DAWSONDOWNIELAMONT

DAWSONDOWNIELAMONT

CORPORATE OVERVIEW

Dawson Downie Lamont is a company steeped in tradition with a proud history in manufacturing and engineering that dates back to 1905.

Beginning life as manufacturers of reciprocating pumps for the shipyards on the river Clyde, the company has insisted on high quality operations in all areas of its business.

This commitment to excellence has seen the development of independent divisions that share the company's original values of traditional, high quality craftsmanship combined with reliability and superior customer service.

These divisions are:

- **Reciprocating Pumps**
- **Export Packaging & Case Making**
- **Pattern Making & Reverse Engineering**

DDL is now part of FTV Proclad (UK) Ltd which is owned by Proclad International, one of the world's market leaders in the engineering services sector supplying the oil industry.

Reciprocating Pumps

DAWSONDOWNIELAMONT

Dawson Downie Lamont are manufacturers of reciprocating pumps for the oil & gas, petrochemical and marine industries worldwide.

With over 100 years of experience in pump technology, DDL offer wide ranging expertise in the pumping of various liquids. The customer base of the company has developed since the early 1900s where it was predominately servicing the shipyards on the River Clyde and now includes most of the world's leading oil companies, EPC contractors and process equipment packagers.

Our specialist range of reciprocating pumps are designed, manufactured and tested in accordance with API 674 and the Hydraulic Institute Standards. Designs can be custom built to suit individual customer specification and material requirements.

Our product range includes high pressure Triplex Plunger pumps for high efficiency, high pressure applications and Double Acting Piston pumps for high volume, medium pressure duties.

DDL are also one of only a few companies world wide that specialise in the manufacture of Steam/.Gas Driven Reciprocating pumps.

DDL provide a full after-sales service including a fully guaranteed spare parts service. Our customer base is also supported by a worldwide agency network.

Spare Parts Service

Dawson Downie Lamont provide a comprehensive back up service for their pumping systems from replacement parts to full refurbishment of existing DDL pumps.

Because of the nature of the market and our flexible, customised approach to customer needs, very few of our pumps are the same when leaving the plant. It is therefore vital the correct details of your system are provided when ordering parts.

Global Sales Network

Dawson Downie Pumps have been shipped far and wide during the company's 100 year history and to support our extensive client base we have a comprehensive network of sales agents stationed nationwide.

To find your nearest agent visit our website at www.ddl-ltd.com or contact our international headquarters on +44 (0) 1592 775577.
